

**Mobile sound projector**

Optimal mobile use thanks to the integrated battery!

**Developed for universal use!**

Connected to the TV, you experience in your caravan convincing home cinema sound through the use of 4 x 10 watt full-range stereo speakers and coordinated audio software.

Thanks to the sophisticated mounting system, Sound S-40 Mobile can be removed from the TV. It can then be used as a mobile device, e.g. in the awning. The integrated battery lasts up to 12 hours.

Bluetooth 5.0 (AptX Low Latency) makes music streaming very easy.
